21 September 1982

MEMORANDUM FOR: Acting Director of Central Intelligence

FROM : SA/DCI/IA

SUBJECT : Agenda for Meeting with Judge Clark,
22 September 1982

1. As of this moment, I have not heard back from Walt — *new confirmed.* regarding his query to Clark. We are proceeding on the assumption that Clark will be agreeable to having [] take up a portion of tomorrow's meeting to brief him and McFarlane

25X1

[]
Walt is probably correct in suggesting that we go ahead with the briefing tomorrow in light of the probable NSPG meeting on Friday. Because of the situation in Lebanon, it would be unlikely that we would get another hour on his calendar for such a briefing.

25X1

2. I presume that you will want to get into some other topics with Clark either before or after [] presentation.* I have, therefore, produced a book based on the agenda items I mentioned to you last night.

25X1

- Lebanon. We should hear shortly the results of today's election. You may wish to discuss the prospects for the Lebanese government and US efforts to get its peace initiative back on track. Hopefully by tomorrow morning we will have a better idea of what actually took place during last week's massacre.
- West Germany. In light of the CDU-FDP agreement, you may wish to discuss the implications for US policy of a Kohl government.
- NFIB. You may wish to brief Clark on the results of today's deliberations. Because of tomorrow's NSC meeting on the pipeline, there may be nothing else to say on the pipeline SNIE. You might, however, wish to pass on the findings of the memo on Pakistan.

SECRET

- IIM on Soviet ABM Developments. [] 25X1
has given you a status report on the IIM. He is shooting for a 6 October NFIB. (FYI--Before he left, the Director suggested that the NFIB be scheduled for the day that he returns so that he can attend. You may or may not wish to move it from Tuesday to Wednesday). [] 25X1
also his perception that a fast track SNIE might be required to address likely Soviet and foreign reactions to a US decision to defend MX with ABMs. He believes that such a paper should be in response to a policy request and that we would require the details of US-ABM options in order to produce the paper. You may wish to consult with Clark to see if he wants to request that we do such a study.
- FBI CI Slots. If you have a chance, you may wish to inform Clark of the results of your and the Director's conversations with [] 25X1

[] 25X1

4. Please let me know if there are any changes that you would like to make to the agenda. I will keep you advised regarding Clark's response to the Central America briefing.

[] 25X1

* Walt suggests that [] who is 25X1
attending for NSC Staff, sit outside the office in Sit Room 25X1
for the first 10-15 minutes to permit you + Clark
to cover these or other items.
